

Environmental Policy

Bentley Fielden Ltd acknowledges its responsibility to, and the commercial advantage of, maintaining a sound environmental policy and approach which meets the requirements of the **BS EN ISO 14001:2004**

We recognise the importance of, no matter how small, the impact of our activities on the environment and that there is a need to constantly consider ways in which we can conserve energy and minimise waste in all activities that we undertake.

In addition to compliance with all relevant legislation and regulations, we endeavour to take positive action in reducing impact on the environment by a measured programme of focused activities.

Waste Management

It is our policy to ensure that all waste is disposed of in line with legal and environmental requirements.

Recycling and use of Recycled Materials

To utilise, and promote the use of, recycled materials whenever possible, ensuring that materials are disposed of in an environmentally safe manner at the end of their useful life.

Energy Conservation

To manage electricity, water and gas supplies to ensure minimum consumption through energy efficient initiatives. It is our policy to make efficient use of natural light within our building and to conserve energy by adopting an 'only turn on when using' approach to utilities.

Environmental Management Awareness

To raise and maintain a high level of understanding of, and participation in, environmental best practices by staff and suppliers.
